James Kilpatrick to Speak

James J. Kilpatrick, the most widely syndicated political columnist in America, will deliver a free public address at Coastal Carolina College in April, college officials have announced.

Kilpatrick will speak in Wheelwright Auditorium at Coastal Carolina College on Wednesday, April 6 at 8 pm.

He is appearing as the spring speaker for the William A. Kimbel Distinguished Lecturer Series, which is sponsored by the Kimbel Trust, the Episcopal Diocese of S.C., the Myrtle Beach *Sun News* and Coastal Carolina College. Last fall the William A. Kimbel Distinguished Lecturer Series sponsored and appearance by Art Linkletter and last spring the series speaker was NBC correspondent Irving R. Levine.

Kilpatrick, a native of Oklahoma City, was editor of the *Richmond News Leader*, one of the South's major newspapers, from 1951-1967 and attracted national attention for his incisive editorials. He became a syndicated political columnist in 1964 and has since become the most widely printed political columnist in the nation.

His regular column, *A Conservative View*, appears in 425 newspapers. He is a contributing editor to *The National Review* and he is a regular essayist for *Nation's Business*. He appeared for years on CBS-TV's *60 Minutes* as the conservative debater on "Point/Counterpoint" and he currently appears on the PBS program *Agronsky and Co.*

His address at Coastal Carolina College on April 6 is free and open to the public.

JAMES KILPATRICK

Sample Tests Positive for Asbestos

Results returned on Monday, March 14th from Northrop Services, a scientific testing service located in Research Triangle Park, North Carolina, which confirmed the presence of asbestos in the ceiling material of the Fine Arts Building. The sample sent was described as "chunky white acoustical plaster. One fiber type consisting of bundles of white, silky, lustrous fibers is interspersed throughout the plaster/perlite matrix. Estimate fiber concentration at 3 percent." The asbestos is a type of chrysotile asbestos and is at a relatively low level of presence in the ceiling. The Environmental Protection Agency does not warn of danger until the asbestos level reaches five percent.

The bulk sample was tested in a number of ways. First by general observation. Next, the sample was examined under a polarized light. Finally, a method known

as dispersion staining, involving the immersion of the fibers in a series of high dispersion refractive index media, revealed positive identification of asbestos components when certain dispersion colors appear.

The final analysis confirmed our fears of asbestos. The EPA warns that different levels of asbestos sometimes dwell within the same building. This fact calls for a more intense study of the different ceiling components within each room. The asbestos can be either left alone or encapsulated. If not corrected, students and teachers must be warned against the use of vibrating machinery or anything else that might disturb the plaster and disperse some of the asbestos fibers. Encapsulation is a rather expensive process that involves sealing the asbestos and plaster underneath a safe ceiling.

Water Damage In Singleton Building

by LAURA ARAIZA
Staff Writer

While it may be raining men in nightclubs across the nation, there's been rain of a different kind on campus. On March 3rd, 1983, the pipes in the Singleton Administration Building broke. Three offices were badly damaged with water. The Singleton Building is 20 years old, so the pipes were so rusted and rotted that water leaked out and the pressure caused the ceiling to break in one corner.

The three offices affected by this were

Mrs. Mildred Allen's, Assistant to the Chancellor; Mr. Mac Sarvis, Media Center Director; and Mrs. Brenda Cox, Executive Secretary to the Chancellor. Mrs. Allen's office suffered the most damage. Damage was to carpets, which were badly saturated, and wallpaper. At this moment, the Chancellor's office doesn't know the actual amount of damage until the estimates are made. The office will get new carpeting and wallpaper. New pipes with copper tubing will be installed.

Honors Convocation

The Third Annual Honors Convocation has been scheduled for Thursday, April 21, 1983 at 7:30 p.m. in the Wheelwright Auditorium. A general reception will follow in the Student Center.

All students and their families and friends, along with faculty and staff are invited to attend. Students have asked faculty to wear caps and gowns to the Convocation and to sit in a reserved seating area.

Entrance Requirements May Change

by RODNEY ROGERS

Marsh Myers, Director of Admissions, has submitted a proposal to change the admission qualifications for incoming students. If the proposal is adopted, students will be required to have the following subjects during high school before they are admitted to Coastal: 4 years of college prep English, 2 lab sciences, 2 foreign languages, 3 social sciences, and at least have taken math through algebra II. The student must also have a minimum of 16 credit hours in high school.

If the student has met these requirements, he will be admitted to Coastal regardless of SAT score. However, if his score is not at least 800, the student will have to take remedial courses.

Why is Coastal changing its admission standards? Myers claims, "The proposal is oriented towards helping high school students be successful when they get to college." Myers commented that the new requirements will cut down on remediation, and therefore save the school money. He said that Coastal is doing too much remediation at the present

moment; more than is necessary. With the new program, more students would graduate in 4 years and there would be a lower drop and withdrawal rate.

The proposal was passed by the Committee for Academic Affairs and passed by the Faculty Senate a few weeks later. Of the voting members, only one opposing vote was voiced. The opposer proposed to table the vote until the new chancellor arrived.

The proposal has been in Myers' file for four of five years, but he did not feel the time was right to release it. Not one change has been made in the original proposal. The new requirements have not gone into effect yet, and Myers tells the students, "This is proposed, and with the approval of the Chancellor we may implement what has been approved and recommended by the Faculty Senate."

The next step for the proposal is for the Chancellor to vote on it. Since we will soon have a change of head, the Committee feels that it would be discourteous to jump in to it without input from the New Chancellor. *The Chanticleer* will inform the students when and if the new proposal takes effect.

Don't forget: SGA Elections will be held Monday, March 28 and Tuesday March 29. VOTE!

Letters To The Editor

To the Editor:

I have one question for the bookstore manager: Why are the front pages of the used textbooks always cut in half? I have to buy history books with world maps, math and science books with formulas, and even some accounting books have tables on the first pages. These maps, tables, and formulas are sometimes crucial in solving a problem in the class. Hence, the used books become less desirable. It's not fair to cut out this page, because you are cutting out some of your audience.

Name Withheld by Request

To the Students,
Mobilization For Animals announces its

third meeting today, March 23 in room 205, Student Center at 1:30. At the meeting, a video cassette and a slide show entitled "Animal's Rights: The Issue, The Movement" will be shown. All students, faculty, and nonstudents are invited to attend.

The group will travel to Atlanta on April 24, 1983 to protest a major Primate Center. The trip will cost only \$9.00 per student, and we will leave the campus on Saturday, April 23.

Anyone who is sincerely concerned and brave enough to stand up for his beliefs attend the meeting on March 23.

Gina Bollinger, Pres. MFA
Rodney Rogers, V. Pres. MFA

Retractions: In the "Dispute Over Parking", Chancellor and selected members of his cabinet proposed and approved that students and faculty pay a \$5 parking fee, this proposal was not made by the S.G.A. Secondly, Lassen did not make an agreement with the Chancellor that the faculty pay a \$5 parking fee; the agreement was that he uphold the total proposal and not selected parts of the proposal, which the Chancellor did agree to. Lassen did not make an agreement that students who have failed to register their vehicles should not be ticketed until faculty should register vehicles. This proposal was initiated in the S.G.A. and brought before the Building and Grounds and Parking and Safety Committee.

The Future: Plastics and Advertising

Paul Godino, Jr.

Is it the United States we live in, or is it the United States of Plastics and Advertising? Plastics have seemingly become a way of life, a sub-conscious need the mind has yielded to.

We are all guilty of going to the stores that have the most attractive and-or largest advertising signs.

Quality does not sell anymore; advertising does. People do not buy quality; they buy name brands. Why should we buy a pair of pants or a shirt that will last four to five years, when we can buy a pair that will make our style and prestige rise every time we wear them.

Are Americans 'price motivated' or 'plastic motivated'? I believe there is a correlation between the two. Just about everything we see or touch is made of plastic, from great big billboard signs to

the tips of our shoe laces. Plastic is cheap and easy to color and form into anything of one's desire.

The human brain is attracted to objects that are colorful, pretty, large, and exciting. When we want something such as food, we do not go to John's Restaurant, we go to a place that has an exciting name or a pretty sign. Our minds are also relieved, when we are lost and frightened, and we suddenly see a familiar advertisement. Familiarity is our security blanket. That security blanket is usually made up of plastics.

Americans thrive on plastics and advertisements. We will never change it. Plastics will grow and grow until the day the American favorite will no longer be apple pie, but an imitation made from plastics, and advertisements will be the main show and anything in between is an intermission.

APO Basketball Game

Last Monday night Alpha Phi Omega Fraternity took on the WKZQ Jocks. The game was played to raise money for the Mercy Hospice. \$150.00 was raised for the Mercy Hospice.

Coach and APO President Bob Steele said, "It was a tough game. I thought KZQ played fantastically, but our superior strength and pay offs to refs was the turning point of the game." Steele

also said that the stats were sketchy and that rumor has it that Jackie K. was the tallest scorer.

According to one of the KZQ Jocks, Buz Mason "Nice try." Also sympathy goes to APO brother Tim Henson. He was the only one to be injured in the game with a blister on his foot.

Many thanks to the Koastal Klowns for their great job of refereeing the game.

VA Compensation

If you are eligible for compensation from the VA for a service—connected disability, you may be entitled to other benefits and services such as VOCATIONAL REHABILITATION from the VA. When entitled to vocational rehabilitation the VA pays for tuition, required fees, books and supplies, and assists with job placement upon completion of training. Medical treatment is also provided as needed, and a monthly subsistence check is authorized.

If interested in this program contact John McCrea, VA Regional Office, 1801 Assem bly Street, Columbia, SC 29201, or Cheri Callahan, Veterans Affairs Office, Student Center, USC Coastal Carolina College.

In order to make up the classes missed on Friday, January 21, because of weather conditions, classes will be held on April 4th. This Monday was an extra holiday added to the Easter break. We will hold classes on April 4th, and all offices will be open. In order to make up the precise classes, especially labs, missed on January 21, we will follow a Friday schedule on Monday, April 4th. On that Monday attend the classes you normally have on Friday.

Next week, the Chanticleer will publish the annual April Fool's Edition. The real news will return the week following Easter Break, on April 6.

EDITORSHIP AVAILABLE

Applications for editorships of the Archaios, Atheneum, and Chanticleer along with description of positions are available in the Office of the Dean of Student Development located in the Student Center, Room 206. Application deadline for all editorships is 5 o'clock on Wednesday, April 6, 1983. Interviews of all candidates will be scheduled by the Student Media Committee during the week of April 11 and appointments will be announced no later than April 18, 1983. A stipended accompanies each appointment. Contact Robert W. Squatriglia for details on Ext. #203. Thank you.

Kimbel Library hours during the Easter holiday will be as follows:

Thursday & Friday, March 31 & April 1	8:00 am -- 5:00 pm
Saturday & Sunday, April 2 & 3	CLOSED

Registration Office Working For Students

by SUZANNE HILL
Copy Editor

For the past two and a half years, Coastal's registration Office has been working with main campus and the other Carolina campuses to put together a new registration system. The new system has been implemented partially and will be in total operation by September of 1983.

OSCAR, the name for the new computer system, stands for Optical Scanning Computer Assisted Registration. It will be partially in use this spring for fall registration, April 4 through the 12. After the purchase of the scanning unit the computer will be fully operative.

When fall registration begins at the first of April, students will fill out a computer scanning sheet with their advisor. Then they will turn it in to the Admissions Office. A week later, April 19, students can return to the Admissions Office and get their schedule. If the student's schedule is not to his liking, he or she can make an appointment to get the changes made. This way all scheduling will be completed before final exams.

The Registration Office would like to

stress that all scheduling will be done on a first come, first serve basis. Also, because of the Governor's budget cuts classes will be larger, also if there is not a demand for certain classes they will be dropped. So, if students want to get all their classes they must register as early as possible.

After the purchase of the scanning unit of the system, Coastal will have on-the-line registration. This means that when the student comes in to turn in his computer scanning sheet, it will be read right away. The student will be able to see his schedule on the terminal then and there! If they like the schedule it will be punched in, if not, they can make an appointment for changes. The scanning unit will be purchased this summer for use in problem or late registration on September 1, 1983.

The fall schedules and the scanning forms will be available in the Admissions Office by March 25. Make early appointments with your advisors, and get the schedule you want for next fall.

Needed: Staff Members

Help Wanted! The **Archarios** is now advertising for reliable students who are interested in serving on the staff of one of the most exciting publications on the Coastal Carolina College campus. Qualifications include: A commitment to the standards of this publication, willingness to do a variety of tasks, a sensitivity to the arts, a sense of pride in the college publication.

The staff which is recruited now will be involved in the 1984 **Archarios**. Interested students are asked to contact Sandy Jeffcott (in the English Lab) to arrange for an interview. Positions are being filled quickly - so stop by the English Lab and make an appointment today! Deadline for staff positions is March 31.

Scholarships Available

The Ocean View Memorial Foundation of Myrtle Beach will award academic scholarships again this year to eligible recipients of the Grand Strand Area. The Foundation has awarded more than 150 scholarships to worthy students of the area over the past five years.

Application forms for the scholarship are available from the Chancellor's Office at Coastal Carolina College or from guidance counselors of high schools in the Grand Strand Area. Scholarship applications should be submitted to: The Chancellor, Coastal Carolina College, Box 1954, Conway, S.C. 29526. The deadline for applications is April 1, 1983.

The Board of Directors of the Ocean View Memorial Foundation recently voted to continue its scholarship program. In other business, the Board welcomed two new directors: Archie S. Dargan and Carolyn S. Burroughs. The Board also elected new officers for the coming year: Erick B. Ficken, Chairman; Edward M. Singleton, Vice-Chairman; Carolyn S. Burroughs, Secretary; and Wilson B. Springs, Treasurer.
